0800	—	Briefing with JF, PT, JS, TD, GD, s.37, CZA (MS Teams)
	CZA-ALL	- successfully get commercial vehicles and 2 personal vehicles through but tensions rose over night
		- major disconnect between checkpoint 10 and border
		- power struggle at checkpoint 10
	TD	— mv
	W6-CZA	sense of numbers? leadership?
	CZA-W6	overrun by no one in charge, 20-30 semi's, ~50
	TD	passenger trucks, 6 tractors
		- continued to block through the night
		- secured side road for access of day shift police
		- same group blocking north and southbound lanes
		- calm in the townsites, mood is calmer than checkpoint 10
		- will be - will be monitoring around bridges
	TD-KC	Working on info of cattleman's association - they want to speak with protesters *
		no update/change
	IS-PT	100 vehicles departed from one area over night
		3 vehicles identified as protesters in our parking lot, some got tickets
	JF-ALL	could group in south help group in north? need support from the industry
	GC-ALL	Site engaging the groups at CP10 with CCMG
		- CCMG hopefully will get a lead, show good faith, demonstrate we did them a favor yesterday by restricting access

	GC-JF	no update on CCMG but that would be a good strategy
		- will continue to hold checkpoint as they have
	CP-JF	wouldn't be productive to have north + south meet because
		no leadership
	JF-GC	want to proceed with blocking Hwy 4?
	GC-JF	would need more work done at CP10 and multiple CP10 ^{mv}
		checkpoints along Hwy 4 but not ready yet
	PT-ALL	cattleman's association will be good
		helpful to have media capture that interaction
	GC-PT	leaning toward a private meeting rather than public over
		media due to protesters not wanting to say wrong thing
		on air
	PT-GC	want to capture it in one way or another
	CP-ALL	will work collaboratively with mayor and group - minister
		of transportation wants approval to do this
	JF-CP	minister of transport needs to speak with JK if they want
		to get involved
		- we support them
	GC-JF	CCMG strategy - they are back at CP10
		3 W bound vehicles just pushed through
		- can facilitate convoi at site
		Solicitor-Client Priv.
	NS-JF	updating messaging on road passages

Time	Action	Details
		Manitoba has trucks at their legislature
		Regina expecting protest at their legislature
1518	Sonya-ALL	what media can we expect at courts over weekend?
	JF-Sonya	- Rebel media has been on site doing live streams
		- find out media that might be present
	Frank-ALL	- for injunction, it probably won't be effective
		- as for timing, it's going to be tough to give group in courts notice but injunction application could happen quickly
1528	—	meeting concluded
1529	—	Briefing with GC, JF, Steve, Barry, TD, IS, NS (MS Teams)
	GC-ALL	- things have calmed down
		- CP10 200+ Vehicles
		- 1345 traffic was flowing again ^{mv} 1345 traffic was flowing again on both sides of border
		- CCMG has solidified relationship with Personal Info.
		- still an option to merge CP10 and site
		- no shenanigans currently
	JF-ALL	recapping call with Premier
	GC-JF	CCMG believes Personal Info. is actually a leader
		Main event is at courts so if they try to merge two protests, it will happen at courts, not to Milk River
1537	GC-TD	^{mv}
	JF-GC	Reiterating Personal Info. is not coming
	IS-ALL	Possible blockade happening in crownest pair
	IV-MI	another convo travelling south out of Calgary

Time	Action	Details (this field expands)
0818	PT-AH	CCMG engaged with 2 moderates, worried it might escalate. Not sure of outcome.
	AH	Getting closer to getting to enforcement action as things are winding down. Becoming closer to look at this option due to fragmentation of groups. becoming more clear that this is an offense.
	PT	Not trying to spark it up, have grounds for arrest. If there are key people we want to apprehend strategically, okay with this. If they blockade road again but will not take action that will result in another blockade. Number one priority is to keep roads open. Understand desire to enforce but have to be tactically patient.
	AH	If enforcement is required we are getting there
	PT	Obvious things to do with safety we have to enforce, but broad action we will hold off. If dynamic changes and they block boarder again, we can move in then. As long as boarder is open we are meeting our priority.
	AH	Provincial snapshot: ensuring DEOC is on track; focused on Coutts. Intel folder done. Province looking to get injunction, was on hold on Friday. Injunction doesn't achieve anything. BB and SJ will give us no authorities to act. Capacitiies on SOLE.
	PT	Update with DEOC-OPS with anything significant
	AH	Tow truck operators? Updated: have not enforced to take away their business due to several factors. Not aware of any tangible criminally threats.
	PT	They're concern is the trucks, not helping us. When road is blockaded again, we can reach back out to the tow association. No tangible work for them right now.
	SK	Optimistic this won't happen again. Don't want to bring them on with no work.
	AH	SES members and class 1 drivers with STO both in Coutts now. DEOC doing well overall. Good support from SH- have resources.
	PT	Next planning block? Keep 2 blocks ahead at all times.
	AH	Planning block summary.
0843	PT	Intel updates to all law enforcement agencies is getting out?
	SK	Confirmed. Not very many holes as of yesterday. 400 vehicles, 800 people as of last night. Yesterday we had all tasks accomplished. JS working on getting notes on scene from MCM
	AH	Updated joining instructions; this is completed. KK managing. Need to clarify we are sharing what we're supposed to share provincially. Don't have much capacity left in DEOC.

	PT	If something else is to spark up, can we package something to them on roles and responsibilities?
	AH	Nothing pre packaged other than pre existing knowledge. If big event, key piece would be direct intentionality from Command. Defined command there.
	PT	Task ops officers in district to develop what this package would look like. Work on plan if another big event comes up. Have someone to give overview and work off that. Resourcing, ask, plans, etc.
	AH	Give DOs context and finish with follow up emails from EM on PTs behalf.
0900		Briefing begin: PT, JF, SK, AH, SH, KK, SJ, BB,
	KK	Site update: Ops meet this morning. CCMG met with group of 3 people. Had gone up to Red Deer to meet with 3 MLAs (unidentified). Said they wont be doing anything unless they move trucks. "Freedom 2022" planning to move out at 1300hrs today. Don't know how many trucks but have around 6 people associated. May have trucks on site or CP10 but unsure. CCMG talked to Personal key guy - not planning on leaving. Will wait to see what happens at 1300hrs. Media reporting that working on handful of media lines with respect to ops planning. Ongoing comms - Silver looking at concerns with police and public safety at site. 400+ vehicles at one point. 500-600 vehicles and 800 people at CP10 last night. cooperative and short. When driving through checkpoint - big trucks, some alcohol, need to make sure everyone is safe, have good attitude overall. CBSA and Boarder Control estimate a 90% reduction in traffic in both north and southbound lanes at boarder. IBET - not able to see Personal - associate who crossed the boarder. Arrest plan for him in place. 24 personal vehicles down from 88 yesterday. Surveillance on Per - leaving him alone for now unless he starts headed our way. Had drone flying over area in restricted air space. Will be followed up on for charges. Site quiet overnight. Total of 271 personal vehicles, 53 campers, 32 semis, 6 tractors, 400+ people. A couple people tried to push line - no issues. 28 in northbound 1 lane open, 24 in southbound lane with 1 Lane open. 3 STO teams in Milk River, 3 on site with evidence gathering cap. CIP resources will be 50 per day unless need for more. Combo of "E" and "K" STO. will try to maintain this. Saloon update: 20 personal vehicles, 4 commercial and 10 campers. Objectives: daily is police public and protester safety. trying to move vehicles at CP10, only down to one lane -significant risk. 2nd is keep traffic moving at CP10 and site. Facilitate exit at 1300 hrs is third objective. GD and investigative bronze faciilitating this. CCMG on same page.
0909	PT	CCMG to do townsite engagmeent with mayor?
	KK	CCMG engaged, follows more of long term (LT) objectives and addressing today. LT objectives starting immediately: ops planning. Priority 1 is moving CP10 protest to lawful location. Assigned CZA. Engaging local counties to move location of protesters to safety. Putting together team for this. Declare on whether it is SOLE or not. Second LT objective could change: develop plan for blockade at site. Assigned Marty Reed with STO, working with ERT, investigative team and GD resources. Will forward written plan to PT by 1400hrs. Communities have vested interest in supporting us. Personal Info. from community trying to move people off site. RCMP Needs: taken up significant piece of real estate in CBSA office, may have Command Post (CP) request to hold resources. Working towards having discussions on resources. Have discussion on police obligations such as G8 summit. Continuing to working towards LT resources in case we stay for longer. DEOC need for SK - Event file management? Disclosure? Request for email address. Informatics equipment wokring well.

K Division - ~~Emergency Response Team~~ DEOC Gold Command

0917	AH	File management - yesterday morning joining instructions contains all.
	KK	DEOC to manage this. IS as a contact point. Investigative team to be included.
0920	KK	1 truck departing on site
	KK	Looking for large CP, not ERT CP to maintain appropriate space. Will follow up.
	PT	CCMG assets- do we need 2-pronged approach, one for community and one for protesters. Community engagement component important. Secondly, discussion about Cattleman's Association- maybe engaging with protesters to discuss impact. Where is this at? They have reached out to us.
	KK	Have not seen anything - will follow up on Cattleman's Association. GOA here, have dug heels in and had discussions on impact. Some listening to community, some not. Community stood up with movement of CP10 plan. Need to look at adding a couple with CP10 movement - additional CCMG capacity required.
	JF	Cattleman's have been engaged and making capacity. Off-site meeting unconfirmed.
0925	CZ	Yesterday had 3 hour delay at CP10 for commercial trucks to get through. What is status today?
	KK	5 minutes to clear CP10 this morning. Last night was at 2.5hrs due to volume. People are friendly, traffic flowing but tight. Tasking to GD this morning was to have conversations with people there to avoid congestion. People unaware to danger. Trying to work with food trucks, etc. to move to a lawful area.
	PT	Are we seeing uptick in boarder crossing traffic at other ports?
	KK	CBSA advising there is an increase. Another strategy - see if we can get area suitable for protesters, simultaneously move CP10 down south to next cross road. Open up 501 to get to Del Bonita. Still have to go through CP10 right now.
0930	NS	Look at public safety messaging and making sure that gets out.
	PT	Looking for investigative briefing with AE. Silver to arrange.
0932	SK	Next briefing at 1300hrs. Briefing end.
	PT-SK	Fed gov't concerned about overall protest activity and lack of action from OPS. Include in update to have to Tact Plan if road is blockaded, progressing with investigation. Talk about community engagement. Draft for PT and he will send.
	JF	Get map to see from Milk River down. Analysts to gather.
0936	PT-AH	Approved to get CP of any kind, just a matter of if we can get it on site.
1019	PT-AH	CO has update with province at noon. Wants update on where military process is sitting before this meeting.
1101		Investigative update: AE, PT, JF, SJ, KK
	PT	Looking for potential enforcement action. Trying to clarify if we were to move into enforcement action at separate areas, how do we set in being able to affect arrests and in terms of charges? Only select a few people to go under CIDA and tierred tickets. What could we support at this time?

K Division – Emergency Response Team DEOC Gold Command

AE	Focused on site under CIDA at Coutts at 51 trucks at boarder. Our best evidence to start is trucks limiting access to Coutts. Have good catalogue of what trucks have been here and when. Pe involved at CP10 but action at Saloon is what triggered us in on him. Secured charges against him. Special "O" on him last night and today - effect and arrest at discretion of Silver. Makes sense through tactics. Good spot at site, doing corporation checks with trucks on site. Waiting on info from DCAS, but looks like one corp has multiple trucks. Priority one to clear highway and priority two is to secure and clear charges. Unless tasked to investigate certain offense, haven't been engaged with exception of work being completed by CCMG. Biggest change is that that we're not the ones interviewing, being fed from CCMG. Gap in principle and purpose of CCMG resulting in gap in investigation. In position to action a charge if tactically desired, but investigational would not like to action anything until proper interviews are conducted. Tier level of responsibility to give us best file moving forward.
PT	If trucks stay where they are, would we be in a position to make arrests and charges in Saloon? Have we met that threshold with leadership team?
AE	Not met for all leadership group, but some individuals such as Persona. Some evidence for file we are waiting for DCAS. Social media has identified some potetinal leadres but working on tying indivdiuals to trucks.
PT	How many in Saloon could meet the charge threshold? Do not go ahead yet, just looking for big picture. How long for investigative plan to be complete?
AE	To come. Trying to tie people to trucks, difficult because we're not there. Relying on CCMG but they are busy. No investigational plan to go into Saloon.
PT	Would be seriously challenged if the plan was to enter the Saloon and effect charges under CDFA and try to tie people to trucks. If they go back to trucks and move blockade position, ideal would be to find them in these trucks. Gap in identifying drives. Drone capabilities, BWCs for evidence required if they left the vehiles after repositioing them.
AE	Not enough evidence right now under CFDA but would lose Mischief charge. Taking license plates everyday, and need evidence tactically but not in a position to do this right now.
PT	CP10 - workup on Personal. Anyone have same cross over between Saloon and CP10?
AE	Personal Info. is Personas second in command. Need positive ID, maybe 5 people we could charge if fine tuned at Saloon. Some individuals crossing over between Saloon and multiple trucks. Persona not belived to have a truck.
PT	Targeting from investigational and CCMG, where is most traction? Needs to be cross over between who they identify as key players and do we have investigational package to back it up?
AE	CCMG has a lot of traction. No package with CCMG yet on doing this but can do this quickly. In position if required.
JF	Have all pieces there, need to have more conversation with CCMG. Evidence on people but CCMG needs to give priority on who we are targeting. Also opporutnites post incident to gather information.
AE	Investigative strategy going forward. Could act quicker tactically but could provide better product long term.

Solicitor-Client Priv.

	PT	DEOC and MCM tasked with notes gathering.
Solicitor-Client Priv.		
1136	KK	Too late for s.37 Drone would be helpful - will pass onto Marty Reed. STO coming with evidence gathering team package.
	PT	Any other investigational gear, tactics, etc. to help move forward with evidence gathering faze?
	AE	s.37 may be helpful to collect evidence inside Saloon.
	KK	Tapped into some information on their group chat, but not all. Cannot tap into this specific chat unless s.37 involved.
Solicitor-Client Priv.		
s.37 s.37		
	PT	s.37 for identification, don't necessarily need electronic infiltration.
	AE	Not timely to get s.37.
1143	KK	Approved for anything discussed.
1144		Meeting end.
	PT-SK	At this point, blockades will have to happen in order to enforce.
1300		Briefing begin: PT, AH, SK, SH, KK, LM, BB, SJ, MM
	KK	Site update: just completed Bronze/Silver meeting. GD looking after CP10. No change in numbers in CP10 in people or vehicles. Still moving well. Will report on length of time it is taking for people to pass through. Identified gap in obsvs of site. Have periodic patrols and captures on RPAS. Continuous observation of site, corrected that gap with IBET. Numbers: night shift reported 24 southbound, 3 vehicles and 18 northbound. Will get clarity on how many on trucks/vehilces, etc. Current number is 18 vehicles southbound and 14 northbound. Have had some depart, still monitoring. Gap of continuous real time. Intel update: Person asserting himself as a leader at CP10, associated with Person. Looking for our support. Silver command is that he will not be coming down at this time or part of an ongoing investigation but can be friendly in keeping roads keep. We support this as of now, nothing in background too concerning. Person indicated he doesn't speak for the group of hardliners intent on staying. Long term objective to relocation CP10 -CZA leading Community Stakeholder Engagement Team (CSET) called. Making contact with communities for movement. Tactical planning in event of blockade is ongoing, expected by 1400, engaging GD, ERT and investigation resources. Media update: RMK and team moving things forward. Discussion had on messaging to go out, has bronze level auth to move these out. No change in CBSA or CBC of volume coming through. Update from AE/legal: police required to provide a site for protest. Response is that we don't require that in this circumstance, may be people that want to help us find site. Civil liability insurance for people who want to provide their land. CZA team working on. Event file management and MCM distinction: CIDA - DEOC taking on, would like

		to have 2 resources on site to report with DEOC so we can decide which of these 2 streams it needs to go through.
1309	AH	Any change on need for alternate CP
	KK	Relocation in different space, alternate CP not required.
	SK	Update of convoy south of Oktoks. No indication of coming to Coutts. 100 tractors, semis and trucks. Any update of heading their way will update.
	PT	Talked to investigative team, focus for RCMP from National is Ottawa.
	BB	Had conversation with members of council, cell phone number for anything needed in future.
	KK	No updates from 1300hrs, expecting verbal update from CIP bronze and Tact advisor assigned to Silver. Will meet with update 1700hrs
	MM	Facebook post on group moving out, cannot confirm the group name and seems small.
1315		Meeting end.
	PT-AH	Reach into MCM to assign resources.
	SH	Court Sheriffs on standby- hold?
	PT-SH	Hold for now, highest risk at ending up back in blockade and move to enforcement. If numbers at CP10 diminish, then we can re evaluate. Currently positioned to take enforcement action if we end in blockade.
1324	AH-PT/SK	Update on logistics.
	SH-PT	Possibility of contact to get tow trucks, older trucks though.
	PT-SH	Standby for now, nothing to tow yet. Still hoping for military action.
1446	KK-PT	(Phone call): Still working on plan, proactive or reactive response. If they block road or not, what do both pieces look like.
	PT	Proactive piece - disconnect from CCMG on who key players are and ability to apprehend and destabilize leadership. Looking for DCAS social network accessing, still missing this though.
	KK	Looking to activate s.37 there, as long as we don't have blockade we will set up appropriate response. Traffic still flowing. Proactive side - can seize trucks, and move them out at our leisure. Can do this before or after blockade, still wait for s.37 info.
	PT	Have idea of some key players, but still have gap. When it comes to taking over trucks - can disable simply. Then we don't have to worry about blockade if they can't move. Military request in and looking favorable. 72 hour window from approval, looking at another 3 days from having it. No force in Montana to utilize, revisit pushing on some other areas if we feel we're in a position to use it. Don't want people to sit on standby. Has to be tied to something or responding to something, keep building tools and waiting for military.
	KK	Pressure at CP5 at community and check stop level.
	PT	Good to put out on social too. Went over Q&As. TD may be good option to go to community meeting.

1600	PT-NS	(Phone call): talk about prepping on meeting with villager on Tuesday. ensuring whoever will attend will have Q&A that's been prepped for the CO. NS and Janine Richardson to follow up.
1700		Briefing begin: PT, JF, SK, AH, SH, KK, SJ, BB,
	KK	Site update from 1400hrs: CCMG had contact by Personal Info.. Knows Person but don't rep each other. Access to move south denied. Message back to him that we have ongoing investigation and don't want him apart of it. Haven't heard anything more from him. "Freedom 2022" subject was on his way to meet MLA; unfamiliar with name. Was trying to convince more truckers to come. Influential community member Personal Info. - reiterating protests at town, looking at bringing him in to CSET piece. Everything calm, travel time at about 30 mins. Getting in rhythm to be able to provide site intel. At CP10: 15 CVE, 12 tractors, 210 PV, 45 RVs, pretty quiet right now, cooperative. People want to come south but are denied. GD discussion - SHs able to have bus/vans for transport. Will keep resources in Lethbridge. Can accommodate 50 prisoners, and vans can hold 10. IBET update - looking after site and boarder activity. Concern raised and challenging members on authorities, same communication through comms. Discussions had with them why we're there and seem to settle them. 48 PV 1 CVE, 4 PV by track. Personal has 35 PV 6 CVE 10 RVs 25 people observed. Tasked out Intel to see if we can gain better sense on who is inside. Site update: 17 CVE northbound, 18 CVE southbound and 5 PV. CP5 someone ran out at 1400hrs came from Personal towards CP5 members, rattled and concerned about mental health from people inside Personal. Will keep eye on this, had discussion on importance of IDing these ppl. Media update: brought horses into Saloon last night. Mayor sent list of concerns, community becoming frustrated. Comm meeting scheduled for Tuesday night. Asked us to attend this meeting. RMK team has been tasked to make sure our messages are consistent. CBSA no change from this morning. Vehicles flowing across boarder but slow. CBB US partner Kingsgate 4 person protest. Intel - covey Cali to Washington 94 000 followers - significant. Ppl scoping out fuel locations and rest stops. Investigative team: Per left Okotoks back to Calgary - Spl O on him to arrest. Maybe coming to Coutts Tuesday morning, may arrest him at this point. "E Div CIP here and tact troop. Working with STO. Unit reps from bronze command working inside search bay to put together plan. Should be ready soon. 2 options: what does look like for site plan proactively with no blockade, also reactive plan with blockade and what resources for each? 50 resources available tomorrow from STO. S. ERT members for tomorrow with possibly PDS. CSET, CZA is on the way with team. Objective to work with community and stakeholders to help resolve CP10 for lawful protest. AH still working on event file management and 2 resources on site.
	SH	Transport vehicles - 2 vans with 8-10 capacity in Lethbridge and ready. Buses have 23 person capacity in Calgary with 4 hour response time. Can move down to area if necessary, staged in Calgary due to hotel issue.
	KK	Request to bring all resources down to Lethbridge.

	KK	Involve community in CP10 solution before this ends.
	PT	Actively engaged with these people on the road, forms foundation for lawful protest zone.
	Solicitor-Client Priv.	
1724	KK	Dangerous due to large trucks rolling through festive atmosphere. Peaceful but dangerous. If reason that site clears is due to government mandate changing, we can expect demobilization. Several dangerous factors and no place to go.
	SH	CP10 understanding there were charges laid - footage of family. Can provide footage to comms.
	SJ	Rebel News released they are arresting people in Ottawa (2 people for bringing in fuel).
	KK	1830 tactics meeting to follow.
1730		Meeting end.
1820		Meeting begin: JF, GC, KK, PT, SK
	PT	Sent update from CO on Personal .
	JF	Confirmed he has had nothing to do with this protest. Will try to get confirmation on helicopter situation.
	KK	Done some brainstorming - 2 operations: site and CP10. As long a site isn't blocked, CP10 is priority. Traffic flowing at site. Working with comms and CSET, trying to find new location and get protesters to different site. May involve different steps to obtain site. Site - as long as they're not blocking, have 4 options to present to Gold. 1st- blockade or not, early morning mass arrest require 200+ members. 3 members per vehicle, difficult and requires transport. Cons - not a lot of resources and dangerous, Pro is early morning and no social media. Massive undertaking, not best option. 2nd option- daytime seizure of vehicles with 100 members to take control of vehicles. If anyone tried to break line would be arrested for obstruction. 3rd option strategic arrest of key offenders at Smugglers and around. 50 Tac members have investigators point out who key targets are, followed by immediate seizure of vehicles. Recommended option - holding area at CP10 preventing people from coming in further, vehicle numbers going down, CCMG taking 4 trucks and leaving area. Not sure if this is happening but numbers are still going down. Good option given they don't block the road. Next recommendation would not be CCMG anymore, use 50-75 members to arrest and seize vehicles. Least amount of force, just time and pressure with CCMG and keep reducing numbers. Less inclined to block off as days go on. Influence is declining with hardliners. CIP ERT involved, 3 tac leaders from "E" Div, GD, MCU, and comms involved in drafting these options. Options listed in order from least favorable to most from Silver command perspective. Setting up community meetings for tomorrow and relaying messaging that we are working with community. Waiting for resources to get on ground and will be operational by tomorrow. Would like TD to come down for community meeting. Potential for non-confidence vote for removal of Coutt's Mayor. Still significant interference with traffic.
1835	PT	Encouraged by updates today on how they may be feeling at Personal , but if they signaled they moved by to blockades, look at disabling these vehicles.

	KK	Proactive vs reactive, with exception of status quo option, all other options can be done proactively or reactivity.
	GC	Increasing pressure of Person is concerning on running crisis negotiations. Want to work through taking pressure off Perso, strategic arrest of Person. Consult CNT as part of mitigation strategy and rationale on why we proceeded the way we did. Not at this point yet, but for consideration. Allows Person to still save face; involved council and careful conversation off-site. Moving CP10 dependent on how soft we can keep site. Other option to move through CP10 while being strategic at site. Critical Incident at site. Like option of strategic arrest but concern of whats happening inside Personal.
1840	KK	UCO approved to be inside Personal. No confirmation of whats actually going on.
	JF	Where is Perso getting pressure from?
	GC	Throughout week, unsure if Person is in charge or not. Not sure if theres pressure to stay in Coutts, unsure if strategy or pressure. All to do with observation. Status quo is an option but also continues pressure.
	KK	Pressure from community, may not be the same as Critical Incident but could be similar if prolonged.
	PT	Could take pressure off community if certain individuals "volunteered" to be arrested.
	GC	Verified need to check on Person to see where hes at due to earlier event of atmosphere inside Personal. Delicate play but would allow supporters to see he is taking one for the team.
	PT	Recognize delicate nature, might be way to present without having to commit fully to saying that we're going to arrest him. Get them to give you idea that you need to be arresting; delicate script but could do it without forcing the hand.
	GC	Greg from Negotiators may be good option. Would need senior negotiator. Concept exploratory. Many skilled interviewers that could do this on strategic arrest.
	JF	Personal Info. good options. Remove Person and Perso from equation and rest may leave.
	KK	Perso is leader but also is calming people down. Need better idea from UCO to go forward. Not enough info to know how hes behaving, might be stopping a further blockade at this time.
	GC	More focused strategies that file requires.
	KK	2 people trying to assert leadership positions at CP10; more comfortable with staying status quo. If we had new location to move CP10 to open up Highway 501. Voluntary arrest without seizure of vehicles, voluntary arrest with seizure of vehilces, or mass arrest options.
	PT	Consideration of JK lifting restrictions announcements on Tuesday, might lose some steam due to this.

0852	JF-AH	A couple of vehicles and tractors crashed the barricade last night. KK and team put together options with pros/cons. Anything we do might create a reaction, may be a flash point for things all over province. Good dialogue and lane open. Focus today is to try and find a location for them to protest legally. Frustrations starting to set in on site.
	AH-JF	Members been struggling to have access to good food. A few logistical struggles, food is a number one priority.
0900		Briefing begin: JF, KK, CZ, TD, BB, SJ, MD, NS, SK
	KK	Nothing to report overnight, continued CCMG contact through the day with key leaders. Also at CP10 working through crowd. Continuing talking today with protesters that its pretty dangerous at CP10. Looking to find better location. Introduction with key community partner Personal facilitate meeting on engagement today. Incident happened last night at CP4: 5 tractors showed up with support vehicles that went around check stop. Failed to stop for police. Parked tractors near Saloon and ran inside, a bunch of people came out - could not identify people. Have 1 LP, update to come when we know more. Let fuel go through GD, they do have a lot of fuel now. Gas, propane and diesel around Smugglers. CP10 rolling along with good rhythm. Southbound lane has 41 PV, 2 tractors, 12 CVE, 21 trailers; Northbound lane has 58 PV, 24 CVE, 18 trailers, took less than a minute to get through. Flowing well. Coutt's Site: Northbound has 18 CVE, southbound 21 CVE, 3 PV and 5 large tractors. CP5 has 22 PV and 4 CVE. Identifying key people for CIDA. Brought in GIS resources. Asked this morning to have a demonstration, continuing to investigate as critical incident, have less tolerance for whats going on. Getting IDs from tractors and taking photos. Members there to see what response will be. Media update: being ready for arrest of Pe . RMK working on this. Will take place today or tomorrow morning, timing on when we know there will be movement. RMK working on community side question. CBSA reported volumes are 50%, changing day to day. About 400 commercial vehicles coming through on regular basis. Slowly increasing. CIP update: "E" Div on ground embedded with STO, 6 logistics and 1 evidence gathering team. DCAS update: maybe identified 1 driver from last night, Personal Info monitoring. Posting on social that it will be a big day today or tomorrow, not sure what he's talking about exactly. CSET with CZA are meeting with Mayor of Coutts and Mayor of Milk River. Objective to move CP10, should have update in 1 hr. Meeting a couple times per day. May have further authorities that might engage further community stakeholders. Key is to get community partners working along side us and have leadership role. Objectives of today: public, police and protester safety, keep traffic CVEs flowing, continue to investigate incidents such as last tonight. Longterm objectives: better solution for CP10 and working with communities, investigation ongoing into critical infrastructure violations, tactical planning meetings brought up to Silver and Gold yesterday. Sitting at 5 tactical options, executing one right

		now (status quo option). Planning details further, looking for state of better readiness. Tactical options are for site.
09	TD	Fuel - strategically, Ottawa has taken position of stopping this. Negotiations with respect to fuel, what were agreements?
	KK	Supported fuel to go in, indicated they would block road again. Other perspectives - if trucks run out of fuel, they will be even harder to move. No negative effects from this yet. RMK working on media lines- different than Ottawa situation.
	JF	We are meeting objective of open road. Created dialogue, being compliant with keeping lane open, if we took hard line on this might cause more problems. Can articulate and justify our actions.
	TD	Value of SOLE might be limited
	Solicitor-Client Priv.	
		
	CZ	Spoke with Deputy Minister and JSG today, looking at stronger focus on attempting to get us some tools such as towing. Nova Scotia has designated some roadways. Looking at designation, may be requirement for compliance. Focus on this for the next couple days.
	TD	Community meeting tomorrow?
	KK	Talk that community may have loss of confidence in Mayor of Coutts. Would like TD to attend, but more options - value of us attending. Use speaking lines from Media for this. Have asked CZA when meeting with communities when looking to declare SOLE - look to see how community is viewing situation. Should have input on level of concern.
	TD	Weekend very active in SAD. Event in Cochrane 100 people showed up. remained peaceful. Same time at fire at Ramada, had to evacuate - significant draw on resources. Reality when we are using so many resources on one thing. Intel on convoy later this week with plan to go down to Coutts later on Friday. No sense of ending anytime soon.
	NS	If we do have charges please report. Shows we are taking action publicly.
	MD	SJ and MD headed down to site today.
	KK	Conversation took place earlier today with Bronze and Supt. LAI in MCM disclosure. Arranging for 2 resources to come down to Coutts to assist. Once resources are in place, can report on charges, etc. If Pe is arrested - will pass on through RMK.
	SK	Next full briefing at 1300hrs. Next tact briefing at 0945hrs.
0927		Meeting end.
0929	JF-SR	(Phone call): Update to SR. Pushing back a little saying there is not a lot of equipment.
	JF	Haven't heard anything from Military since we made initial ask - don't feel equipment is appropriate.
	SR	Don't want reason to get in middle of it, haven't seen equipment so not sure

		Minister signed off on this. Member RAPID test needs?
	JF	Unsure if this is in plan right now. Will follow up on Rapid tests.
	SR	Spikes in numbers in Ottawa dealing large amount of people.
	JF	Focusing on mood of crowd, don't want to find ourselves in situation where we cannot handle it. Using fuel as part of negotiation strategy and have compliance of open road.
	SR	Continuing to provide updates to Commissioner, doing great work. Continuing to develop plan with GOA. Preparing for longterm.
	PT	Integrating with LPS on our side, working with OPS in National?
	SR	Starting to harden on situation, no longer allowing fuel, etc. Pressure being increased and the larger reaction it will cause. Similar tow truck situation.
	JF	Strategy will be based on federal restrictions/GOA announcement on Tuesday.
	SR	Have not heard anything on restrictions federally.
	JF	Word that truckers may have to get third booster shot in order to travel provincially; will create a huge reaction. Depending on what happens with restrictions may create the future of this situation.
09		Call end.
0940		Tactical update: CZ, JF, PT, KK, TD, GC, EM
	JF	Update to CZ on possible tactical options from last night at site.
	KK	Summary on 5 options. No seizures of vehicles at this time. Currently with Option 1 of remaining status quo and hold site.
	JF	Can expect flash points with options 3-5, may lose objective of keeping lanes open. Site is stable - maybe look at CP10 and try to deal with this first.
	CZ	Meeting with JSG this morning and talked about enforcement tools such as injunctions and tow truck piece. They are focusing more on tow truck pieces; injunction will not be valuable. Discussion around calls had with Premier this last week, Premier is recognizing where our team is, what could result, what reaction would be to enforcement and could provoke across country. Overt enforcement action could worsen situation. Seem to be getting around to alignment of philosophy. Expecting Premier to make announcement within days to come, hopes this will help situation.
	JF	Getting sense that people down there are getting tired. Strategic/voluntary arrest was considered but has become option due to some of the leaders looking for a way out while saving face. Concern if we take aggressive action could ramp things up and everything we've done over last 8 days would dissolve.
0955	CZ	Voluntary arrest - how do the rest of the people see it. May not understand real dynamics.
	JF	Would need strategy around this, if key agitators could remove themselves, house of cards may come down.
	CZ	If we have level of cooperation and communication this would be a good plan.

J.G. Ferguson, A/Commr.

	TD	Overall strategy is that everyone is going to court. Avenue to dispute through court process. Can get them there through a number of different ways. Hesitancy in group dynamic, may not necessarily want a marter. Will be held accountable through court either way, just a matter of how they will get there.
	PT	Different levels of what will be charged.
	JF	Defense related property will be a big one.
	TD	Stronger argument with Coutts group with this one, more organized group. Every truck there is subject to CIDA. CP10 is more fluid on whose there and whose taking what role. Coutts would be one to focus on.
	CZ	CP10 exist due to main blockade. If we deal with main group, CP10 will disperse?
	PT	CP10 will exist either way - need alternate location. CP10 could easily create blockage at site. If we can get them shifted off highway into designated area. Lessens risk of road getting blocked.
	KK	If we can move CP10, see it playing out different ways. Once community meets we'll know more. Would like to move simultaneously, drop CP10 down a KM down the road. Disperse their spot. Might come down further or move to alternative site. Will keep containment. Gives option for safe commercial travel for Del Bonita.
	PT	Discussion on where to move CP10.
	KK	Need to keep external protesters away from site, will be a turn around point. Accompanying strategy to moving people. Have ability to block right now. Need organizers involved via CCMG. Looking for safety of this.
	CZ	Need their cooperation for this to happen.
	KK	Expecting more people on weekend, working on solution but need all involvement from partners.
	JF-CZ	What is sense on what is happening at Ottawa gov't level? Update on SR phone call from earlier. Important to understand that based on situation it could be a lot worse.
	CZ	Commissioner doesn't have issue with approach and good with continuing looking at options. Nationally - senior exec is in line with our approach. Cold enforcement approach, have their support. No feedback that we should be doing something different.
	KK	First tactical plan in response to investigation - trying to balance preventing things from getting out of hand but also prevent a flash point. Want to test the waters, gave instructions to AE on overt strategy. Asked plainclothes members identified with 2 members and QRT team to go and be seen snapping photos of tractors. Anticipating that people will come over, will have CCMG engage them. Dangerous driving messaging. Hesitate to authorize getting tractor VINs, don't want to be seen as trying to dismantle or disable them.
	GC	Tractors easier to manage, shouldn't be too concern about these- easy to operate. May help us deal with semis, seems to be separate problem as it is easier for us to manage. Getting control of CP10 and moving from unlawful to lawful allows us to focus on site. Site is considered CIP event. CP10 is public order event. Saloon is strategy - more police presence and interaction. Employ this, more opportunity for people to identify themselves to police. Haven't had capacity up to this point. Worthwhile to go ahead with KKs plan above, instead of starting at tractors, start at Saloon to ask around. Then head to tractors, then they know we're paying attention. Member safety an issue.

8	EM	s.37
	JF	Already approved to move forward with s.37 as of yesterday.
	PT	Can tolerate trucks but cannot tolerate behavior - need to spread this message whats acceptable.
1024	JF	Actions in support of blockade but extreme actions will not be tolerated. This might fire things up but APPROVED to go ahead.
	KK	Low level approach, will go forward with this right away.
	GC	s.37
	TD	Agree on making Smugglers a less comfortable place. If taking enforcement on CP10, should we get them to move or different strategy.
	GC	Key is with Person maintaining presence and working with him, front of CP10 controlled by people. Back of CP10 have no stake. Link from CP10, Perso, is important.
	JF	Overt type of presence is approved at Saloon. CP10 is goal is to find alternate site. s.37 Proceed down this road still, value here.
10	KK	SH participation a huge help. Think meeting this afternoon may have to do with Mayor situation. TD may be able to bring down temperature of communities with senior RCMP member present at meeting.
	JF	Preparing list of answers for Q&A.
	PT	Not preparing a formal response. Don't want to address, may escalate things. Expecting things to be more general. Nik to work on specific Q&A.
		PT to send TD questions for awareness.
	JF	Good to have CO on these questions to give updates to Premiers. If they re block road, all things are off table. Will manage. 1300 full group meet and 1430 for next tactical meet.
	KK	LeighAnn can update on assets based on tactical option decisions.
	PT	Notified by Air Services, do we still need HASP?
	KK	Still would like to have this - good footage. Heavy winds today. RPAS and good to have air support.
	PT	Discussion on Gold/Silver rotation: Replacement Large value in Dep Silver. Gold will be on rotation daily.
1050		Meeting end.
8	PT-JF	Discussion on schedule.
1055	EM	Working on secure location to tow vehicles to when that time comes. HASP to extend through weekend.
	PT	Need HASP Friday- Sunday. If we move to enforcement action, definitely need HASP. Will have more info once announcements come.

1105	PT-JV	Reached out to Personal Info. management re helicopter incident - confirmed no involvement
1141	KK-JF	(Phone call): Will we be arresting Pe , CPS a good option to not hinder good relationship that RCMP has with him. Holding off as long as possible on arrest to avoid flash point.
1152		Briefing Ops call begin: DK (Dale Kendall), Gary Grahaam (GG), ED, PT, AH, TD, Blake Ward (BW)
	JF	All supporting police services great support. NPF - these types of events have pushed us, things we could do before agreement was signed. Situational update: Coutts main issue, pop up slow rolling protests. No intel on roadblocks. Members doing great on engagement with groups. Large group willing to mobilize within province. Maintaining objective with open road. Not where we want to be but have achieved objective. Immediate response on any enforcement action - unsafe working environment. Managing through negotiations. CP10 250-400 vehicles. Significant increase in traffic flow continuing, still working to identify key leaders. Sensitive to making arrests - may become flash point. No blockages since Saturday, feel like we're making progress. Review of 5 tactical options. Status quo, strategic arrests, with or without seizing vehicles, or mass arrest. Proactive strategies on finding lawful site for protesters. Concerned about public safety.
	DK	Demands for all restrictions to be lifted, anything we can be doing to mitigate or facilitate legal protesting.
	JF	Discussions happening with GOA. Premier announcement on potential restrictions being lifted. Number of core agitators indicated that if they received an update on restrictions being lifted they may go home, but concern with more hardliners.
	PT	Premier announced last week about removing restrictions - well received by Coutts group. Thought everyone was going to leave, Pe convinced to stay.
	JF	Some groups met with MLAs on weekend. Message is that there would be no further discussion until boarder clear.
	GG	Law firms paying close attention to Ottawas proposal. Will stop bring in fuel etc. What authorities do they have? Does this mirror our strategy?
	JF	Highway was being blocked from fuel trucks last week, now coming across field with jerry cans due to flat terrain. If trucks run out of fuel, much harder to move.
	PT	Controlling checkpoints under Highway Traffic Act. Weren't giving permission but not trying to effectively stop it. Semi's trucks have to give boarder 2 hours in advance and have papers - gives some intel on their purpose. Going off advice of Crowns. Would like to work with ops officers in districts to create a response plan in event districts end up with blockades. Start to map out structure, send gold intent. Practical problems such as tow truck shortage. No capabilities to move trucks without voluntary compliance. Potential for federal gov't to create worse situation by new restrictions. Early planning between now and Wednesday for designated silver with intent and plan. All resources focused on Coutts and plans to pull more, continue to still be central resourcing. DEOC to be hub for resourcing. Article 9 invoked. Establish framework to support around plans.
1215	DK	Ops officers to meet on this so framework is consistent. AH to be apart of this. Bring in things we're already doing.

GG	EAD has EOP - generic structures from Coutts Ops plan for detachments, tightened it for Boyle.
PT	Sort out resources proactively.
EM	Look ahead at booked leave and have conversations about forced leave. Situational awareness on what we're potentially facing for Command staff.
PT	2 week planning cycle.
JF	Will share gold intent as well with DOs.
PT	STO members - stand down for 48hrs for break. Detachments need to allow. Pass along to Commanders.
AH	Meeting for resources requested.
PT	Get back to EM with delegates. Want framework developed by Weds.
GG	EAD sent rep via email to EM.
BW	WAD sent rep via email to EM.
AH	Doing best we can with resources.
PT	Managing whats in front of us, can pull resources from other areas if needed.
JF	Didn't understand how connected this group was and how quickly they can mobilize.
AH	Due to increased demand - recognize semi optionals that are plausible to meet needs.
1228	Meeting end.
1230	***** ***TRANSITION OF GOLD COMMAND FROM A/COMMR. JOHN FERUGSON TO C/SUPT. PETER TEWFIK. ***
1300	Briefing begin: JF, PT, KK, CZ, TD, BB, SJ, MD, NS, EM
KK	Site update: media update: monitoring with whats happening in Ottawa, dealing with questions about fuel given to protesters. Had discussions here to strategies response. Message on tow trucks - some companies reluctant to get involved. Hoping people will drive them out on their own, traffic is flowing. Fuel issues may be different here. CBSA update/Boarder Patrol: director Jason Greene attended meeting. Advised on accommodations -could make it happen in Shelby 30 mins from here. Investigation update; members have gone to Saloon, went fairly well, had team have more of a presence and let know it will result in criminal investigations if running. More to come. CSET: still looking for new site, met with community of Warner, Milk River and Coutts. Good meeting. first 2 sites were north of Milk River, not tactically a good location. Optimistic to find solution south of CP10. IBET locations: site (CP2)has Southbound 19 CVE, 1 PV; northbound 19 CVE. Smugglers has 7 CVE, 40 PV. CP5 has 26 PV, 4 RVs. CP10 has 24 RVs, 17 CVE, 8 farm vehicles, 104 PV. Similar numbers to earlier. Seeing change in items being brought in to make more comfortable, working to change this. Intel- still monitoring social media. Numbers staying the same. Expecting higher numbers over week. 800-1000 people here on Saturday night, expecting same. Preparing target sheets and

		differentiating between persons of interest and persons chargeable. Have inventory every morning of skills on site of different members on daily basis.
	TD	Have SAD chiefs meeting ongoing; briefing them as we go. Things from KB - Willing to provide resources, Blood Tribe issues in Carway can be first response. Chief of Medicine Hat willing to provide resources. Tied them into Silver. Possibility of sympathetic actions - will let them know should we start taking any overt actions. SAD Chiefs seeing issues in their areas but all peaceful.
	Solicitor-Client Priv.	
	TD	Have this starting to move in event that it's needed. Conversations are taking place, if muni declares it it still has to be approved by Minister.
	KK	Spoke to 3 communities in area about SOLE - don't want to pursue this at this time.
	Solicitor-Client Priv.	
	SJ	GOA is concerned it's options with respect to this act. SJ has advised that decision should be done in consultation with the RCMP.
1330	CZ	Possibility of suspending licenses and insurances with commercial vehicles; operate as leverage or bargaining tool in discussions?
	PT	Have not gone this route yet.
	Solicitor-Client Priv.	
	KK	Some earlier conversations with potential outcomes, USBP restricting access to States. May want to have discussions with US partners to share info of licenses and persons names. Will follow up on this.
	TD	Ontario looking at this as well. Unsure how restrictive insurance is with who or who will not insure.
	Solicitor-Client Priv.	
	PT	Update on call with DOs in event we have another issue in one of our districts. Districts have identified delegates to work with EM to be done by Wednesday.
1324	KK	CBSA update: towards Carway- convoy 10 light trucks and 12 agricultural vehicles lining sides of highway.
	PT-SH	SHs to look into this
	BB	Kenney announcement about ending restrictions - any impact?
	KK	Will task CCMG to get a feel at site.
	PT	They have stated they will take the lifting of restrictions as a win, but unsure if mood has changed.
